A CLASS ON “DISEASE PREVALENT IN RAINY SEASON”

On the onset of rainy season the importance of awareness about the chance of occurrence of diseases and its control measures is important topic to be discussed among students. So our association organised an invited lecture on “Disease prevalent in rainy season” and the Resource person was Mr. Seby, Health Inspector, Pookkode Health Centre on 7th July at our auditorium.

BIODIVERSITY CONSERVATION WEEK

One week duration programmes were arranged in connection with biodiversity conservation week. On 28th July 2015 the Herbocollegium members collected plastic waste from the entire campus and instructed students to keep the waste in the bins to maintain the campus as a plastic free campus. A poster presentation was organised based on the theme Green day and exhibited the posters in front of the main building. Different classes and seminars were presented by the staff and students of Herbocollegium to inculcate the necessity of conserving the mother earth. The activities of Herbocollegium for this academic year were inaugurated by Dr. Baiju E.C. Asst Prof SNM College Maliankara and he delivered a lecture on Organic Farming on 15th Dec 2015.
